WELCOME TO OUR PRODUCT CATALOG

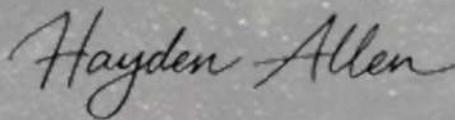

At Georgian Bay Granite, we believe every project begins with a vision — one shaped by craftsmanship, integrity, and a deep respect for the natural beauty of our region. We all cherish the special places that generations have discovered, enjoyed, built, and ensured their legacies live on. The uniqueness and heritage of Georgian Bay will always be something to appreciate and preserve.

From the rugged shores of Georgian Bay to the landscapes we help our clients create; our stone tells a story of endurance, authenticity, and timeless design.

Our mission has always been simple: to bring the strength and elegance of Canadian shield granite to life through precision, care, and collaboration. Whether we're shaping a single step or designing an entire outdoor living space, we approach every project as a lasting partnership built on trust, quality, and pride.

This catalog represents more than our products — it's an invitation to imagine what's possible. Each page reflects the dedication of our team, the natural character of our materials, and the innovation that guides us forward. We continually strive to deliver excellence — creating products that not only elevate spaces but also celebrate family heritage and the spirit of the Bay.

Thank you for allowing us to be part of your story. We are proud to share the legacy of Georgian Bay Granite with you — stone by stone, generation by generation.

Hayden Allen
President, Georgian Bay Granite

Luxury in Every Detail, Carved from the Heart of Georgian Bay

About Us

At Georgian Bay Granite, we combine modern technology with a passion for craftsmanship to make working with granite simple, precise, and cost-effective. With five advanced saws and a guillotine on site, our team has the capability to cut and shape stone into a wide variety of custom products—perfectly tailored to your project's needs.

All of our granite is locally sourced from our own quarry and manufactured on site. This gives us the flexibility to deliver consistent quality while adapting to the unique demands of each landscape, architectural, or interior design vision.

Whether you need flagstone, custom cuts, or specialty finishes, Georgian Bay Granite is your trusted partner. Our focus is on enhancing both the beauty and durability of your living spaces—crafted from stone that's as enduring as the Canadian Shield itself.

CRAFTED WITH INTENTION,
BUILT FOR GENERATIONS.

About

Our Products

Locally Sourced Quality – All granite is quarried locally from our own Georgian Bay site, ensuring consistent quality and reliability.

Durability – Granite is naturally strong and long-lasting, making it ideal for both indoor and outdoor applications.

Versatile Applications – From patios and walkways to steps, coping, and interior features, our granite adapts to a variety of design needs.

Unique Aesthetic – Each piece features the natural beauty and distinctive hues of Georgian Bay granite, adding timeless elegance to any space.

Personalized Service – Our team works closely with clients to meet specific design visions, ensuring every project is both functional and visually striking.

Bring Your Vision to Life with Realistic Renderings

Helping You See It Before It's Built.

At Georgian Bay Granite, we understand that choosing the right stone, finish, and layout is a big decision. That's why we use AI-powered renderings to transform site photos into lifelike previews—so you can see exactly how your project will look before the first stone is placed.

Visual Confidence

Give us a photo of your space, and we'll show you realistic “before & after” views with our selected granite colors, finishes, and installation styles. No guesswork—just clarity.

Accurate Product Representation

We integrate the exact textures and tones of the stones we supply, giving you confidence that what you see is what you'll get.

Faster Design Decisions

During consultations, we can adjust layouts instantly—tight vs. wide joints, random vs. straight patterns, or even different product lines—helping you make decisions on the spot.

Enhanced Client Experience

Renderings eliminate uncertainty, reduce design changes later, and allow you to confidently invest in the premium finish you'll truly love.

Professional Project Support

Renderings can be shared with installers, contractors, or added to your proposal package, keeping everyone aligned on your design vision.

The Result

- Clarity in product selection
- Confidence in design decisions
- Consistency from concept to construction

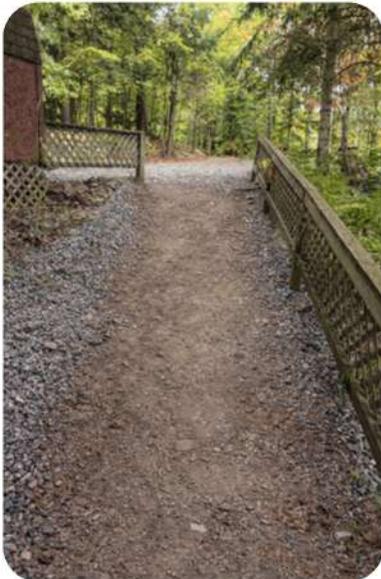

See It Love It Build It

AI Design Studio

Our AI Design Studio combines advanced rendering technology with the natural beauty of Georgian Bay Granite. By transforming site photos into lifelike visualizations, we help clients see exactly how different stones, finishes, and layouts will look in their space—before installation begins. This innovative tool streamlines decision-making, reduces uncertainty, and brings clarity to every project, ensuring clients confidently select the perfect granite for their vision.

See It

A picture of your space is the starting point for our AI Design Studio. By uploading a photo, we can overlay realistic renderings of Georgian Bay Granite products.

Love It

Instead of trying to picture how a granite patio, steps, or wall will look from a small sample, you'll see the full effect in your own space.

Build It

Once the design moves from rendering to reality, the finished granite installation transforms the space into a cohesive whole.

GEORGIAN MIDNIGHT

SIGNATURE COLLECTION

Inspired by the exposed granite shorelines of Georgian Bay, this deep charcoal stone features sweeping white quartz veins. Subtle mineral warmth echoes iron staining and lichen found across the Bay's iconic islands. Bold, timeless, and unmistakably Canadian Shield.

LANDSCAPING FEATURES

2" FLAGSTONE

GEORGIAN MIDNIGHT

2" FLAGSTONE

GEORGIAN MIDNIGHT

A photograph of a stone wall with a window and two red Adirondack chairs. The wall is made of dark grey and brown stones with light-colored mortar. The window is a double-hung style with a black frame, reflecting a blue sky with white clouds. Below the window is a large, dark-framed window or glass door. In front of the wall, two red Adirondack chairs are placed on a stone patio. The patio is made of large, dark grey stones with white veining. The overall scene is outdoors, likely in a residential setting.

2" FLAGSTONE

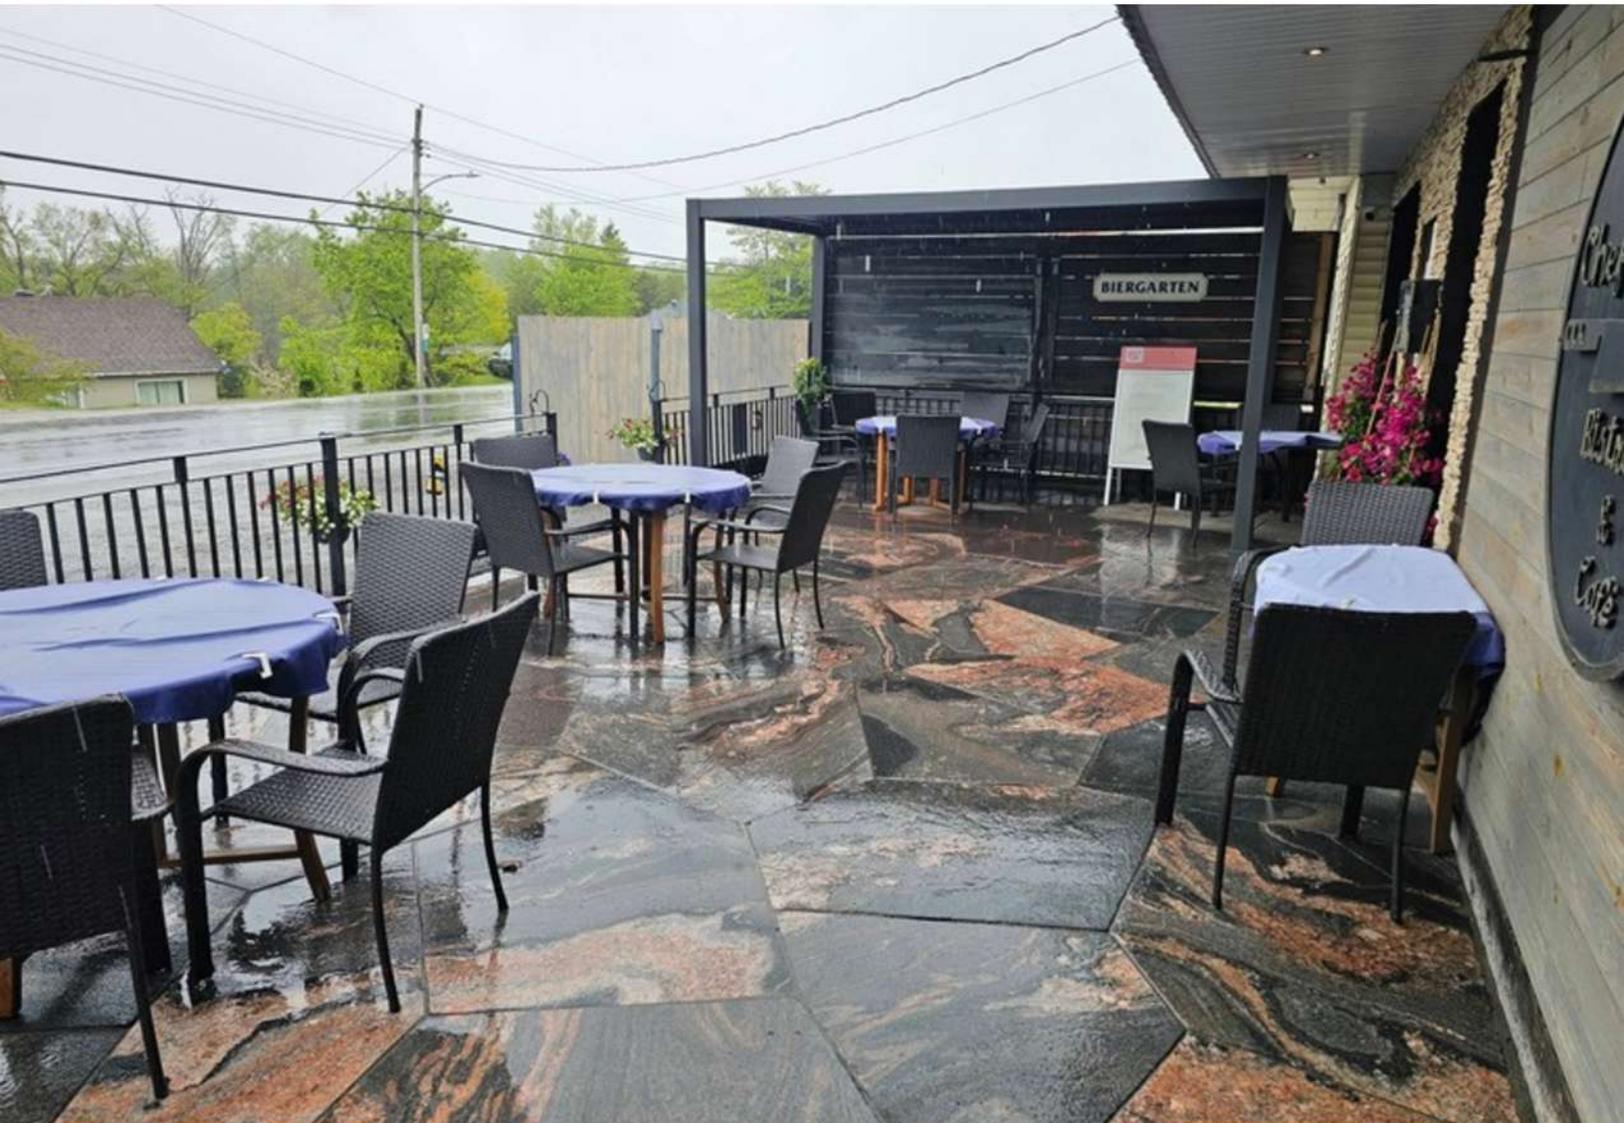

GEORGIAN MIDNIGHT

GEORGIAN BAY

SIGNATURE COLLECTION

Flowing, swirling patterns of copper, bronze, and earthy pinks sweep across the surface. Creating dynamic contrast against the dark base, giving the stone a sense of movement and organic flow. Bold character and true Georgian Bay Heritage.

ENTRANCES & WALKWAYS

STEPS

LANDSCAPING FEATURES

A black wood-burning stove is the central focus, set against a wall of large, irregularly shaped flagstones. The ceiling is made of horizontal wooden planks. To the left, a wooden door frame is visible. In the foreground, a metal fire tool set stands on the floor. To the right, there is a brown metal bucket and a black metal pot.
